

## Let's Build the Future Smart Home Security Solution

Turn any Home into a Smart Home with our integrated solution:

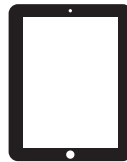

Delta's IoT module, AverLogic's video processor, QNAP's NAS and eBsuccess' APP

Control your Home wherever you are through eBsuccess app:

An internet based solution that connects the camera surveillance, the app and the server.

Smart Home solution connects the IoT sensors with Averlogic AL582 Video Processor and Delta DNNN50 Wi-Fi/BLE Module letting user know and control everything at home.

eBsuccess' APP

QNAP's NAS

Averlogic AL582 / Delta's IoT Module

24x7 hours real-time video protection

Remote Control and Monitor  
Open and close any entrance

Smart Home Solution supports a wide range of devices:

Baby monitor, home camera, door phone, AV sender, Walkie-talkies, toy applications, pet cam, elder care robots, robots vacuum cleaners and much more...

## The best Smart Home Solution Team at your service

### AverLogic- AL582 H.264 Audio / Video Codec

A multi-functional video streaming SOC. It includes video compression codec, SD card controller, embedded DDR memory, embedded MCU, video processing engine, RGB DAC and TV encoder.

### Delta DFCM-NNN50 BLE BLE/Wi-Fi combo module daughter board

- NORDIC Semi nRF51822 with ARM® Cortex®-M0 processor
- 32MHz embedded crystal, 32.768KHz external RTC
- 256KB flash memory, 32KB SRAM

### QNAP- NAS Server and Networking

The TS-251+ performs as an easy-to-use yet powerful NAS for data backup, file synchronization and sharing, remote access and multimedia applications. The ideal solution for users to create a secure private cloud to access their data easily.

- Run multiple Windows®/Linux®/UNIX®/Android™ based virtual machines with the Virtualization Station
- Play 1080p videos with the bundled remote control and 7.1 channel audio pass-through via HDMI

### eBsuccess- Android/iOS APP and SDK

- AverView is an App for live streaming view by connecting with AL582.
- App development including remote control, freeze, drawing, image comparison, image/video sharing, set image quality and switch camera resolutions
